## **About Me**

I am a passionate computer engineer and full-stack developer with experience in mobile and web applications since 2019. I specialize in creating seamless, user-friendly digital experiences and have a solid foundation in various programming languages, server management, and DevOps. I am quick to adapt to new technologies and thrive in collaborative environments, delivering high-quality projects that meet both client and user needs. Committed to continuous growth, I am always eager to take on new challenges in the ever-changing tech landscape.
